EDUCATION

University of Illinois at Urbana-Champaign – Grainger College of Engineering
Bachelor of Science in Industrial Engineering, Minor in Computer Science

Expected Graduation: May 2028
GPA: 3.82/4.00

PROFESSIONAL EXPERIENCE

Air Force Research Laboratory

Rome, NY

VICEROY MAVEN Research Intern

June 2026 – August 2026

- Supported systems engineering efforts for DARPA's LongShot UAV by collaborating with an AFRL mentor to conduct requirements analysis, review system documentation, and contribute to the development of the UAV.
- Collaborated with engineers from NASA Ames Research Center to evaluate and refine system requirements, identify ambiguities and inconsistencies, and improve requirement quality using requirements engineering techniques
- Performed cyber threat and vulnerability analysis of a foreign AI-enabled data center, researching infrastructure, potential attack vectors, and operational risks before synthesizing findings into a comprehensive "Cyber Blue Book"
- Utilized NASA's Formal Requirements Elicitation Tool (FRET) to translate and verify natural language requirements, strengthening requirement precision and consistency while supporting the formal requirements engineering process
- Selected as 1 of 50+ interns to represent the internship cohort during engagement with the Department of Defense leadership at the Pentagon, participating in discussions and learning from senior officials and leaders.

LEADERSHIP & INVOLVEMENT

Alpha Kappa Psi Professional Business Fraternity

Champaign, IL

Member

February 2025 – Present

- Chosen as one of 26 out of a 700+ person candidate pool to build upon leadership and professional skills
- Participated in 50+ professional networking, philanthropic, and fundraising events throughout the semester in order to foster personal and professional growth and increase involvement with community
- Networked with active members, alumni, and 25 diverse corporate sponsors to learn and develop business principles outside of courses

Pi Kappa Phi Social Fraternity

Champaign, IL

Vice President of External Affairs

September 2024 – Present

- Organize and coordinate social events for 60+ members, enhancing fraternity engagement and community involvement
- Manage budgets of over \$20,000 for events, achieving cost savings while maintaining high-quality experiences
- Establish relationships with other organizations and campus officials to facilitate collaborations and opportunities

Air Force ROTC

Champaign, IL

Public Affairs Deputy

August 2024 – Present

- Receive extensive leadership training to achieve the goal of commissioning as a 2nd Lieutenant upon graduation
- Complete rigorous leadership development, physical fitness training, and military education through AFROTC
- Gain experience in decision-making under pressure and leading small groups effectively through varying exercises
- Manage external communications and alumni engagement for a 70+ member detachment, strengthening relationships with graduates and presenting alumni career achievements and service experiences to inspire and mentor current cadets
- Collect and showcase cadet involvement in campus organizations, athletics, volunteer service, and professional activities to promote well rounded leadership and encourage engagement beyond AFROTC

ENGINEERING PROJECTS

Conventional Toaster Design

Team Lead

October 2024 – December 2024

- Deconstructed a conventional toaster, carefully measured and dimensioned each physical component using a caliper, and 3D modeled every individual part in Fusion 360 to accurately reconstruct a fully functional digital representation
- Developed high-quality renderings of the product, created an animated demonstration to showcase the toaster's functionality, and constructed an exploded view to visually display each component and its role in the overall assembly
- Executed an Autodesk Fusion 360 stress analysis of a vital piece by simulating forces in numerous directions
- Composed a formal written report and conducted a formal oral presentation on the project task and their processes

SKILLS & INTERESTS

Skills: Microsoft Office, Autodesk Fusion 360, Java, Python, C++, Prompt Engineering

Interests: Chicago & Illini Sports, Golf, Pickle Ball, Current and Classic Cinema, Country Music, House Music
